

Dear All,

As you would be aware that the new version of Trade Tiger has all the updated calls & levels across Equities & commodities segments under the Ignite – Ignite decision support tool tab.

We would thus like to inform you that w.e.f 1st Aug 2014 PDF copy of Proplus newsletter will not be available.

Traders are requested to access the Ignite call watch window for getting updates on calls & levels.

Additionally you can also get in touch with your Trade mentor for getting updates on the latest Intraday & swing calls

Across Equities & Commodities segment.

Thanks & Regards
