1. PREFACE

This Know Your Customer (KYC) and Anti-Money Laundering (AML) Policy (the Policy) has been prepared in accordance with Prevention of Money Laundering Act, 2002 (PMLA Act). This Policy also takes into account the provisions of the PMLA Act and other Rules and Regulations laid down by SEBI and FIU.

As per PMLA, every banking company, financial institution (which includes chit fund company, a co-operative bank, a housing finance institution and a non-banking financial company) and intermediary (which includes a stock-broker, authorized persons, share transfer agent, banker to an issue, trustee to a trust deed, registrar to an issue, merchant banker, underwriter, portfolio manager, investment adviser and any other intermediary associated with securities market and registered under section 12 of the Securities and Exchange Board of India Act, 1992) shall have to maintain a record of all the transactions; the nature and value of which has been prescribed in the Rules notified under the PMLA. For the purpose of PMLA, transactions include:

1. All cash transactions of the value of more than Rs 10 lakhs or its equivalent in foreign currency.
2. All series of cash transactions integrally connected to each other which have been valued below Rs 10 lakhs or its equivalent in foreign currency, where such series of transactions have taken place within one calendar month and the monthly aggregate exceeds an amount of rupees 10 lakhs or its equivalent in foreign currency.
3. All suspicious transactions whether or not made in cash and including, inter-alia, credits or debits into from any non-monetary account such as Demat account, security account maintained by the registered intermediary.

For the purpose of suspicious transactions reporting, apart from transactions integrally connected, transactions remotely connected or related need to be considered. In case there is a variance in CDD/AML standards prescribed by SEBI and the regulators of any other country in which Sharekhan or BNP Paribas Group operates, Sharekhan shall be required to adopt the more stringent requirements of the two.

If the host country does not permit the proper implementation of AML/CFT measures consistent with the home country requirements, financial groups shall be required to apply appropriate additional measures to manage the ML/TF risks, and inform SEBI.

“Suspicious transactions” means a transaction whether or not made in cash which to a person acting in good faith –

1. gives rise to a reasonable ground of suspicion that it may involve the proceeds of crime; or
2. appears to be unusually large and / or made in circumstances of unusual or unjustified complexity or
3. appears to have no economic rationale or bonafide purpose.

Senior Management refers to Business Head and Compliance Head of Sharekhan.

This Policy only supplements the existing SEBI / FIU guidelines relating to KYC/AML and any subsequent guidelines from the date of the Policy on KYC/AML will be implemented immediately, with subsequent ratification by the Board. Extant regulations will at any point in time override this Policy.

2. KYC/AML PHILOSOPHY OF SHAREKHAN

- 2.1 The KYC / AML philosophy of Sharekhan is to prevent Sharekhan from being used, intentionally or unintentionally, by criminal elements for money laundering or terrorist financing activities. The objective of this policy is also to enable Sharekhan to know / understand its customers and their financial dealings better which in turn will help Sharekhan to manage its risks prudently.
- 2.2 It is important that Sharekhan’s management views “money-laundering prevention” and “knowing your customer” as part of the risk management strategies and not simply as stand-alone requirements that are being imposed by legislation/regulators”.

Hence the objective of the policy is to –

1. To have a proper Customer Due Diligence (CDD) process before registering clients.
2. To monitor/maintain records of all cash transactions of the value of more than Rs.10 lacs.
3. To maintain records of all series of integrally connected cash transactions within one calendar month.
4. To monitor and report suspicious transactions.
5. To discourage and identify money laundering or terrorist financing activities.
6. To take adequate and appropriate measures to follow the spirit of the PMLA.

3. WHAT IS MONEY LAUNDERING?

- 3.1 Money laundering is the criminal practice of putting ill-gotten gains or dirty money through a series of transactions, so that the funds are cleaned to look like proceeds from legal activities. It is driven by criminal activities and conceals the true source, ownership, or use of funds.

In simple terms money laundering is most often described as the “turning of dirty or black money into clean or white money”. If undertaken successfully, money laundering allows criminals to legitimize "dirty" money by mingling it with "clean" money, ultimately providing a legitimate cover for the source of their income.

Section 3 of the PMLA Act defines money laundering in following words:

“Whosoever directly or indirectly attempts to indulge or knowingly assists or knowingly is a party or is actually involved in any process or activity connected with the proceeds of crime and projecting it as untainted property shall be guilty of offence of money-laundering”.

3.2. WHY “KNOW YOUR CUSTOMER”?

- 3.2.1 One of the best methods of preventing and deterring money laundering is a sound knowledge of a customer’s business and pattern of financial transactions. The adoption of procedures by which financial institutions “know their customer” is not only a principle of good business but is also an essential tool to avoid involvement in money laundering.

- 3.2.2 Sharekhan shall adopt appropriate KYC procedures and internal controls measures to:

- (i) Determine and document the true identity of the customers who establish relationships, open accounts or conduct significant business transactions and obtain basic background information on customers;
- (ii) Assess the money laundering risk posed by customer’s expected use of Sharekhan’s products and services;
- (iii) Protect Sharekhan from the risks of doing business with any individual or entity whose identity cannot be determined or who refuses to provide information, or who have provided information that contains significant inconsistencies which cannot be resolved after due investigation.

4. CUSTOMER ACCEPTANCE POLICY

- 4.1** No account shall be opened in anonymous or fictitious / benami name(s). PAN shall be mandatory for each account. Each client shall have only one trading account.
- 4.2** The parameters of risk perception in terms of the nature of business activity, location of customer (registered office address, correspondence addresses and other addresses if applicable), mode of payments, volume/trading turnover, social and financial status, and manner of making payment for transactions undertaken, etc. The parameters shall enable categorization of customers into low, medium and high risk. Sharekhan has indicative categories of customers which would fall into low, medium and high-risk categories (refer **Annexure 1**). The list shall be updated with approvals from Compliance, and Business groups.

For the purpose of risk categorization, individuals/entities whose identities and sources of wealth can be easily identified and transactions in whose accounts by and large conform to the known profile, shall be categorized as low risk. Illustrative examples of low risk customers are as follows:

- salaried employees whose salary structures are well defined.
- Government Departments and Government owned companies.
- regulators and statutory bodies; etc.

Customers that are likely to pose a higher-than-average risk to Sharekhan shall be categorized as medium or high risk depending on customer's background, nature and location of activity, country of origin, sources of funds and his client profile etc. Clients of Special Category (CSC) as defined as per PMLA circular dated 4th July 2018, will be classified as "High Risk". Such clients require higher degree of due diligence and regular update of Know Your Client (KYC) profile. Sharekhan shall apply Customer Due Diligence measures based on the risk assessment, thereby requiring intensive 'due diligence' for higher risk customers, especially those for whom the sources of funds are not clear.

- 4.3** While the profile of the customer is captured in the account opening form, a Customer Due Diligence (CDD) sheet is also prepared at the account opening stage for all accounts (individual / non individual). The CDD sheet is an addendum to the account opening form and captures in further detail the profile of the customer, especially the expected transaction pattern of the account. The CDD sheet is prepared by the sales team based on their discussions and understanding of the customer but is not required to be signed off by the customer.

CDD shall include the following measures –

- Before registering client, obtain Antecedent information. Verify independently information submitted by client but not limited to his identity, registered office address, correspondence address, contact details, occupation, Promoters/Directors, source of income, experience in securities market, PAN no, SEBI registration Number, (if any), etc. by verification or original documents or such related processes.

Special care would be taken in case of non-individual accounts such as corporate, partnership firms etc. where the ownership structure is opaque. In all such cases the accounts would be activated only post approval from the compliance department.

- For this purpose, “**beneficial owner**” is the natural person or persons who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, including those persons who exercise ultimate effective control over a legal person or arrangement.
