SUMMARY OF ISSUE DOCUMENT

SUMMARY OF BUSINESS

Our Company is engaged in the manufacturing of Synthetic textile fabrics. Our product portfolio includes Ikat fabrics, polyester garment fabrics, saree fabrics, dhupion fabrics, poly linen, and natural fiber. We primarily cater fabric to women's wear, producing fabrics for sarees, dress materials, and kurtas, while also offering fabrics for men's kurtas. Although our fabrics have multiple end uses, the majority of them are utilized in the manufacturing of different types of sarees.

The origins of our business can be traced back to our Promoters' grandfather, Mr. Harivadan Gangaram Gotawala, who laid the foundation by operating manual power looms from his residence. Over time, the enterprise was expanded by his son, Mr. Kamlesh Gotawala, who scaled up operations and established a stronger market presence. Following his untimely demise in 1997, his brother, Mr. Nilesh Gotawala, assumed responsibility for the business and continued to nurture and grow its operations.

The next generation—Mr. Hardik Gotawala, son of Kamlesh Gotawala, and Mr. Abhishek Gotawala, son of Nilesh Gotawala—subsequently joined the family enterprise. They brought with them fresh ideas, energy, and a focus on efficiency and modern production practices. Their active involvement contributed to enhanced productivity, diversification of the product range, and the transformation of the business into a broader textile manufacturing enterprise.

Today, under the vision and combined experience of Mr. Hardik Gotawala, Mr. Abhishek Gotawala, and Mr. Nilesh Gotawala, the Company has evolved into a diversified manufacturer of textile products while strengthening its domestic presence through its associate concerns. For further details regarding associate concerns, kindly refer to the chapter titled *Promoter and Promoter Group* on page no. 152 of this Draft Red Herring Prospectus.

For more details, please refer chapter titled "Business Overview" on page 107 of this Draft Red Herring Prospectus.

SUMMARY OF INDUSTRY

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, with the capital-intensive sophisticated mills sector at the other end. The fundamental strength of the textile industry in India is its strong production base of a wide range of fibre/yarns from natural fibres like cotton, jute, silk, and wool, to synthetic/man-made fibres like polyester, viscose, nylon and acrylic.

The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce a wide variety of products suitable for different market segments, both within India and across the world.

The organised retail apparel sector is projected to achieve revenue growth of 8-10% in FY25, driven by rising demand from a normal monsoon, easing inflation, and the festive and wedding seasons.

The increasing preference for affordable, trendy fashion clothing that mimics high-fashion designs is expected to be the primary revenue driver. In order to attract private equity and employee more people, the government introduced various schemes such as the Scheme for Integrated Textile Parks (SITP), Technology Upgradation Fund Scheme (TUFS) and Mega Integrated Textile Region and Apparel (MITRA) Park scheme.

For more details, please refer chapter titled "Industry Overview" on page 96 of this Draft Red Herring Prospectus.

Any potential investor in, and subscribers of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment which in some material respects may be different from that which prevails in other countries. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the risks involved. If any or some combination of the following risks occur or if any of the risks that are currently not known or deemed to be not relevant or material now, actually occur, our business, prospects, financial condition and results of operations could suffer, the trading price of the Equity Shares could decline, and you may lose all or part of your investment. - *Some risks may not be material at present but may have a material impact in the near future.*
- *Some risks may not be material individually but may be found material when considered collectively*
- *Some risks may have material impact qualitatively and not quantitatively and vice-versa*

We have described the risks and uncertainties that our management believes are material, but these risks and uncertainties may not be the only ones we face. Additional risks and uncertainties, including those we are not aware of, or deem immaterial or irrelevant, may also result in decreased revenues, increased expenses or other events that could result in a decline in the value of the Equity Shares and may also have an adverse effect on our business. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in the Equity Shares.

Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. For further details, please refer to chapter titled “Forward-Looking Statements” beginning on page 15 of this Draft Red Herring Prospectus.

Unless otherwise indicated, all financial information included herein are based on our Financial Statements. Please refer to the section titled “Restated Financial Statements” beginning on page no. 158 of this Draft Red Herring Prospectus.

INTERNAL RISK FACTORS:

- 1. We have not yet placed orders in relation to the capital expenditure to be incurred for the proposed, purchase of equipment / machineries. In the event of any delay in placing the orders for Machineries or in the event the vendors are not able to provide the equipment / machineries in a timely manner, or at all, the same may result in time and cost over-runs.***

As of March 31, 2025, the aggregate gross block value of our Company's property, plant, and equipment, including capital work in progress, was ₹654.59 lakhs. Our Company has a recurring capital expenditure requirement for the procurement of equipment essential for our business operations. Based on our current estimates, we propose to utilize ₹932.50 lakhs towards purchasing capital equipment. The specific number and nature of such equipment to be purchased by our Company and the details of our capital equipment is mentioned on page no. 74, 1) **Funding capital expenditure requirements for the purchase of equipment/machineries** in the chapter titled “Objects of the Issue” of this Draft Red herring Prospectus.

As of the date of this Draft Red Herring Prospectus, we have not yet placed any orders for the procurement of machinery, and all the machines proposed to be acquired are new. The validity of the quotations received is limited to 6 months. The Company had purchased the machinery from the suppliers previously and satisfied with the performance of machines.

Furthermore, we have not identified any alternate source of funding for this capital expenditure. Consequently, any failure or delay in raising funds through this Issue, coupled with potential changes in quotation prices, may result in cost escalations and delays in the implementation schedule. Such disruptions could adversely impact our business operations and growth plans.

2. *Our business is significantly dependent on yarn and other related raw materials, and fluctuations in their prices or availability, as well as concentration of our supplier base, may adversely affect our operations, margins, and profitability.*

Yarn, including Air Tex Yarn, Texturized Poly Yarn, TPM Poly Yarn, and other related materials, constitutes a significant portion of our total operating costs. The prices and availability of these raw materials are subject to fluctuations caused by factors beyond our control, such as demand–supply imbalances, seasonal variations, changes in government policies relating to the textile sector, imposition or revision of duties, tariffs or levies, foreign exchange fluctuations, and general economic conditions. Any significant increase in the cost of yarn or other inputs, without a commensurate increase in the selling price of our products, may adversely impact our margins and overall profitability.

Our supplier base is relatively concentrated. The details of our top ten suppliers, based on the value of purchases for the periods indicated, are as follows:

(₹ in lakhs, except percentages)

Years	Top 1 Supplier		Top 5 Suppliers		Top 10 Suppliers	
	Amount	% of total purchases	Amount	% of total purchases	Amount	% of total purchases
Fiscal 2025	191.4	8.02	872.54	36.57	1341.75	56.24
Fiscal 2024	467.07	83.93	553.65	99.49	554.48	100.00
Fiscal 2023	764.01	80.46	937.28	98.71	949.54	100.00

As certified by our Statutory Auditor M/s. A.H. Jain & Co. vide certificate dated September 17, 2025 bearing UDIN: 25142660BMKXBP4782.

This level of concentration exposes us to procurement risks. Any disruption in supply from these key vendors, whether due to financial stress, insolvency, logistical bottlenecks, adverse weather conditions, or regulatory actions, may significantly affect our ability to maintain production schedules and meet customer demand.

Further, we procure the majority of our raw materials from suppliers located in India, generally on a spot-purchase or purchase order basis, at prevailing market prices. We have not entered into long-term supply contracts with any of our vendors, given the wide availability of these raw materials in the local market. While this provides flexibility in procurement, it also exposes us to the risk of price volatility and supply chain interruptions. Any inability to procure raw materials of the required quality, at competitive prices and within the required timelines, may adversely affect our ability to fulfill customer orders, which could in turn impact our business, financial condition, and results of operations.

Although our Company has not experienced material supply disruptions in the past, there can be no assurance that such challenges will not occur in the future.

For further details on our raw material requirements, please refer to the chapter titled “Business Overview” under the section “Raw Materials” on page 107 of this Draft Red Herring Prospectus.

3. *Our operations are energy-intensive and any disruption in power supply or increase in energy costs may adversely affect our business and financial performance.*

Fabric manufacturing is an energy-intensive activity that requires substantial power for operating weaving machinery and other related processes. Our operations depend significantly on the continuous and reliable supply of power and fuel. Any disruption in power supply, whether due to grid failures, load shedding, technical

breakdowns, or shortages, could result in production delays, under-utilization of capacity, and increased operating costs.

To ensure smoother operations, our Company has increased the sanctioned load from Dakshin Gujarat Vij Company Limited (DGVCL) and installed inverters to provide backup power. However, these measures may not fully mitigate the risks associated with prolonged or large-scale interruptions in power supply. Further, any significant increase in the cost of power or fuel may adversely impact our cost structure and margins, particularly if we are unable to pass such cost increases to our customers. For further details on Power, please refer to the chapter titled “Business Overview” under the section “Power” on page no. 107 of this Draft Red Herring Prospectus.

Our dependence on continuous power supply exposes us to operational and financial risks, and there can be no assurance that future increases in energy tariffs or disruptions in supply will not adversely affect our business, financial condition, and results of operations.

4. *Potential conflict of interest with Promoters’ proprietary concerns.*

Our Promoters, Mr. Hardik Gotawala and Mr. Abhishek Gotawala, also operate proprietary concerns under the names *M/s. Tripura Textile* and *M/s. Abhishek Tex fab*, which are engaged in a similar line of business as our Company. There is currently no formal arrangement or agreement restricting them from carrying on or expanding their proprietary businesses, or from using their personal relationships, expertise, or market presence in ways that may overlap with or compete against our Company.

The proprietary firms have rented machinery to our Company for a fixed period of two years. If they choose not to renew the arrangement or withdraw the machinery before the term expires, our production capacity and timely delivery of products may be disrupted, which could slow down operations and adversely affect our financial performance.

The overlap in business operations increases the possibility of conflicts in allocation of opportunities, diversion of customers, or misalignment of strategic priorities between the Company and the proprietary concerns. While our Promoters and management team oversee operations collectively, there can be no assurance that potential conflicts of interest will not arise, or that they will always be resolved in favour of our Company.

Any such event may materially and adversely affect our business operations, financial condition, and results of operations. For further details please refer to the chapter titled “Financial Information of Group Companies” under the heading “Common Pursuit” on page no. 215 of this Draft Red Herring Prospectus.

5. *Our business is working capital intensive and any inability to secure adequate financing may adversely impact operations.*

Our business model requires substantial working capital, primarily on account of extending credit to customers and maintaining inventory at levels necessary to support operations. These requirements are typically met through a combination of internal accruals and borrowings. Any inability to secure adequate financing, or to access such financing on favourable terms, may adversely affect our day-to-day operations and growth prospects.

In FY 2023 and FY 2024, our Company benefited from supplier credit that exceeded the funds required for financing current assets. Consequently, no external financing was availed for meeting working capital requirements during those periods. In FY 2025, following our investment in Harikanta Weaving Private Limited, our wholly-owned subsidiary engaged in weaving operations, our net working capital requirement amounted to ₹694.52 lakhs. This was funded through a mix of share capital and internal cash accruals, while the Company enjoyed an average supplier credit period of 63 days.

For FY 2026, the Company has projected a net working capital gap of ₹850 lakhs, of which ₹200 lakhs are proposed to be funded from the proceeds of the Issue and For FY 2027 the Company has projected a net working capital gap of ₹1125.00 lakhs, of which ₹475 lakhs (including the ₹200 Lakhs in FY 2026) are proposed to be funded from the proceeds of the Issue. The supplier credit period for FY 2026 is estimated at 45 days. In addition, the Company has planned capital expenditure of ₹932.50 lakhs towards acquisition and installation of plant and machinery, comprising 20 new rapier looms, 10 high-speed air-jet looms, and 8 high-speed shuttleless rapier looms. This expenditure is also proposed to be financed from the Issue proceeds. The expansion of the building, together with installation of the proposed plant and machinery, is expected to be completed within 6–8 months, with commercial production targeted to commence in FY 2026–27. The increase in production capacity will simultaneously result in

a corresponding increase in working capital requirements. For further details regarding our working capital requirements, please refer to the chapters titled “Objects of the Issue” on pages 74 of this Draft Red Herring Prospectus.

Any shortfall in securing timely and adequate financing, or failure of the proposed Issue, may materially and adversely impact our financial condition, restrict our ability to fund operations, and limit our future growth.

6. Dependence on third-party and subsidiary job work arrangements

Our Company undertakes part of its manufacturing operations on a job work basis. Certain orders are outsourced to our wholly-owned subsidiary, *Harikanta Weaving Private Limited*, to help us meet customer requirements. In addition, in cases of excess workload, we also purchase finished goods from other manufacturers and sell them directly to our clients. These arrangements have supported our ability to handle higher order volumes, retain customers, and maintain turnover.

However, reliance on third-party processing, including our subsidiary, carries inherent risks. There can be no assurance that *Harikanta Weaving Private Limited* will always have sufficient capacity to undertake our orders. If its production schedule prioritizes other commitments, our Company may face difficulties in securing timely support. Similarly, dependence on outside manufacturers exposes us to risks of delays, inconsistent quality, or inability to obtain goods on comparable terms.

Any such disruption may delay order execution, result in loss or cancellation of customer orders, and adversely impact our business relationships, reputation, and financial performance. Given that customer retention and timely delivery are critical to our business model, failure to secure adequate third-party job work support or alternative arrangements could materially and adversely affect our operations and growth prospects.

7. We have experienced negative cash flows in previous years / periods. Any operating losses or negative cash flow in the future could adversely affect our results of operations and financial condition.

Our Company had negative cash flows from our operating activities in the previous years as per the Restated Financial Statements and the same are summarized as under:

(Rs. In Lacs)

Particulars	31 March 2025	31 March 2024	31 March 2023
	Consolidated	Standalone	Standalone
Net Cash Generated from Operating Activities	(43.17)	67.94	193.99

Negative cash flows may restrict our ability to fund working capital requirements, invest in business growth, or meet other financial commitments. There can be no assurance that we will not experience negative cash flows in the future. For Further detail on the Cash Flow of the Company, please refer Chapter titled “Restated Financial Statement” on page no. 158 of the Draft Red-herring Prospectus.

8. There may have been certain instances of non-compliances with respect to certain corporate actions taken by our Company in the past. Consequently, we may be subject to regulatory actions and penalties.

As a Company, we are required to file different event-based e-forms with the Ministry of Corporate Affairs (“MCA”) under the applicable provisions of the Companies Act, 2013. There were certain instances of secretarial non-compliances including delayed filing of different statutory e-forms inadvertently due to non-functionality of MCA or otherwise under the Companies Act, 2013 in our Company, such as

Sr No.	Particulars of delayed filing	Due Date	Date of actual filing	Number of days of delay in filing	Steps taken to rectify such delayed filing / Fines or Penalties imposed, if any

9.	DPT-3	30/06/2025	19/07/2025	19 days	Form was filed with additional fees

The Company, upon payment of the additional fees, has filed the relevant form and regularized the compliance. Further, the aforesaid forms do not necessitate any adjudication proceedings or compounding application.

Further, no show cause notice in respect to the above has been received by the Company till date and no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future or the Company will not commit any further delays in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause adverse effect on results of operations and financial position.

9. *Our Company failed to modify charges with the Registrar of Companies after repayment of certain borrowings, and while we have filed a compounding application, any adverse outcome may have an impact on our business and compliance status.*

On July 29, 2021, Kotak Mahindra Bank Limited had sanctioned credit facilities of ₹40.00 lakhs to our Company, consisting of an overdraft limit of ₹20.00 lakhs and a term loan of ₹20.00 lakhs. Subsequently, as per the agreement dated June 16, 2022, Kotak Mahindra Bank Limited sanctioned additional limit of ₹ 3.81 Lakhs for bank guarantee and it was increased to ₹43.81 lakhs, comprising an overdraft limit of ₹20.00 lakhs, a term loan of ₹20.00 lakhs, and a bank guarantee of ₹3.81 lakhs. In this regard, our Company filed Form CHG-1 for modification of the charge created in favour of the bank.

On May 30, 2023, our Company repaid the term loan in full and closed both the term loan and the bank guarantee facilities. Kotak Mahindra Bank Limited issued a No Objection Certificate (NOC) dated May 30, 2023, confirming the closure. The only facility currently available to our Company is an overdraft limit of ₹20.00 lakhs. However, despite closure of the term loan and bank guarantee, our Company did not modify the charge with the Registrar of Companies ("ROC") to reflect the reduced charge amount.

To rectify this non-compliance, our Company has filed a compounding application dated September 25, 2025 under Section 441 of the Companies Act, 2013, for modification of the charge from ₹43.81 lakhs to ₹20.00 lakhs. Any delay in disposal of this application or an adverse outcome may expose our Company to penalties and compliance risks, which could have an adverse effect on our business, financial condition, reputation, and operations.

10. *There have been instances of delay in filing of Provident Fund (PF) returns, Goods and Service Tax returns (GST) and return of Tax Deducted at Source (TDS) dues.*

There have been instances of delay in filing of PF returns, ESI Returns, GST returns in the past 3 years which were due to initial technological issue with GST portal, limited time frame for staff to align with the amendments in the initial years and multiple clarifications issued by the GST authorities. A wrong filing of GST return can lead to huge penalties and interest. Therefore, reconciliation and checking of returns before submitting them is necessary as there is no opportunity to make any changes afterward. Hence, there were delays in filing of GST returns in order to include correct inputs from all stakeholders involved and make them error free. There were also some delays in payment of Tax Deducted at Source (TDS) primarily due to technical glitches on the portal. Similarly, there were also some delays in payment of Provident Fund (PF) and ESI returns, and delay in Payment of Professional Tax. There can be no assurance that such delays may not arise in future. There is a possibility of financial penalties being

imposed on us by the relevant Government authorities, which may have a material adverse impact on our cash flows and financial condition. The table below sets out details of statutory dues paid by our Company during the twelve months period ended March 31, 2025, 2024 and 2023 regularised later on:

(₹ in lakhs)

Nature of Payment	Entity	Year 2025	Year 2024	Year 2023
Provident Fund	Company	2.80	0.00	0.00
Employees' State Insurance Corporation	Company	0.30	0.00	0.00
Goods and Service tax	Company	0.46	0.60	0.00
Taxes deducted at source	Company	11.40	5.24	5.43
Taxes collected at source	Company	1.24	0.00	0.00

Further, the table below sets out the number of permanent employees for which employment-related statutory dues were applicable during Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023:

Nature of Payment	Entity	Year 2025	Year 2024	Year 2023
Provident Fund	Company	7	0	0
Employees' State Insurance Corporation	Company	5	0	0
Taxes deducted at source	Company	3	0	0

The table below sets out details of instances of delays in payment of statutory dues during Financial Years ended March 31, 2025, March 31, 2024, and March 31, 2023:

Nature of Payment	Entity	Year 2025	Year 2024	Year 2023
Provident Fund	Company	12	-	-
Employees' State Insurance Corporation	Company	12	-	-
Goods and Service tax	Company	1	-	-
Taxes deducted at source	Company	-	-	1
Taxes collected at source	Company	1	-	-

The delay in payment of the aforesaid statutory dues has been duly addressed, and the dues have been subsequently paid. The Company has also implemented internal controls to track the compliances required, due dates and the actual date of compliances on regular basis to ensure such delays are prevented in future. There can be no assurance that such delays may not arise in future. This may lead to financial penalties from respective government authorities which may have a material adverse impact on our financial condition and cash flows.

11. We have certain contingent liabilities, and if they materialize, our financial condition and results of operations may be adversely affected.

As of March 31, 2025, we had disclosed contingent liabilities aggregating ₹83.80 lakhs in the notes to our audited and Restated Consolidated Financial Statements. These contingent liabilities primarily relate to obligations under the Export Promotion Capital Goods (EPCG) Scheme, and bank guarantees issued on behalf of the Company. The details of our contingent liabilities for Fiscal 2025, Fiscal 2024, and Fiscal 2023 are set forth below:

(₹ in lakhs)

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
Contingent Liabilities			
Duty saved under EPCG Scheme*	71.22	0.00	0.00
Bank guarantees given on behalf of the Company	12.58	0.00	0.00
Total	83.80	0.00	0.00

*Notes: The Export Obligation shall be six times the duty saved on import of capital goods, on FOB value of ₹4,27,32,324/-.

These contingent liabilities represent potential obligations that may arise depending on the outcome of future events, including judicial or regulatory decisions, fulfilment of export obligations, and invocation of bank guarantees. If

any of these liabilities crystallize, we may be required to make significant cash outflows, which could adversely affect our financial condition, liquidity position, and results of operations.

For further details, please refer to “*Restated Financial Statements – Note no.AG Contingent Liabilities*” on page 188 of this Draft Red Herring Prospectus.

12. *Our Company is subject to inspections and approvals from the Gujarat Pollution Control Board (GPCB), and any non-compliance may adversely affect our operations and reputation.*

Our Company has obtained consents (No Objection Certificates) from the Gujarat Pollution Control Board (GPCB) under Section 25 of the Water (Prevention and Control of Pollution) Act, 1974 and Section 21 of the Air (Prevention and Control of Pollution) Act, 1981. Although our unit is classified as a zero-discharge unit, these consents are subject to specific terms and conditions. The GPCB conducts inspections of our manufacturing facilities at regular intervals to verify compliance. In the event of any lapse, deviation, or default, the GPCB is empowered to take actions against us, which may include penalties, suspension or cancellation of consents, or even closure of our manufacturing operations. Such actions could adversely impact our operations, financial condition, and reputation.

While we exercise due care to comply with the terms of the GPCB consents and have not faced adverse action in the past, there can be no assurance that we will fully comply with all such requirements in the future. Further, our business remains subject to environmental laws and regulatory approvals on an ongoing basis, and we are required to obtain renewals of GPCB consents and other clearances periodically. Any failure to obtain or renew these approvals, or any instance of non-compliance, may materially and adversely affect our business, results of operations, and brand reputation.

13. *Our business is seasonal in nature, which could adversely affect our business operations and financial performance.*

Our business is seasonal in nature, having sizeable sales volumes during festive seasons, weddings, and other cultural events. As a result, our revenue and cash flows often show the good performance in certain months of the year, which could lead to fluctuations in our financial performance during different quarters. The demand for traditional Indian wear fabrics Ikat fabrics, polyester garment fabrics, saree fabrics, dhupion fabrics, poly linen, and natural fiber fabrics tends to increase significantly during festive seasons and wedding seasons in India and other markets with a large Indian diaspora. We primarily cater to women’s wear, producing fabrics for sarees, dress materials, and kurtas, while also offering fabrics for men’s kurtas. Although our fabrics have multiple end uses, the majority of them are utilized in the manufacturing of different types of sarees. However, during non-festive or off-peak periods, we may experience a slowdown in orders, leading to under-utilization of our manufacturing capacities, lower sales volumes, and reduced profitability in those periods.

Additionally, unpredictable factors such as weather conditions, changes in consumer behaviour, or shifts in fashion trends could impact seasonal demand patterns. For instance, an unusually long monsoon season or economic slowdowns during peak sales periods could adversely affect consumer spending on apparel and textiles, leading to lower-than-expected sales during the periods when we typically achieve higher revenues. The seasonal nature of our business also requires us to manage our working capital efficiently, particularly in anticipation of peak demand periods. We may need to increase inventory levels of raw materials and finished goods ahead of festive seasons, which ties up cash flows and exposes us to the risk of overstocking if demand does not materialize as expected. Any mismatch between anticipated demand and actual sales volumes could result in excess inventory, increased storage costs, and potential markdowns to clear unsold stock, which could adversely impact our margins and profitability.

Furthermore, our export markets may have a different seasonal pattern compared to our domestic market, adding further complexity to managing production schedules and inventory levels. This can result in production inefficiencies if we are unable to align our production timelines with varying demand cycles across different regions and markets. In summary, the seasonal nature of our business poses risks of revenue fluctuations, inventory imbalances, and under-utilization of manufacturing capacities during off-peak periods. If we are unable to effectively manage these seasonal fluctuations, it could adversely impact our financial performance, cash flows, and overall profitability.

14. *Any of new products are launched by our company may not be successful as per our expectations, our business, cash flows, results of operations and financial condition may be adversely affected.*

We are into textile manufacturing business which always requires changes in the design, quality, pattern etc. Our business strategy involves the continuous introduction of new products, including Indian wear fabrics, Ikat fabrics, polyester garment fabrics, saree fabrics, dhupion fabrics, poly linen, and natural fiber fabrics to align with evolving fashion trends and changing consumer preferences. Ability to innovate and developing new products has played a key role for the growth of our business till date, which we aim to continue and develop further capabilities in innovation & new product development for fulfilling our customer demands. Today's customers are looking for fabrics that suit their specific needs. Whether it's unique textures, patterns, finishes, or eco-friendly materials for sustainability, innovative solutions can create strong differentiation in the market. By investing in research and development (R&D), our company aims to create innovative fabric options tailored to the emerging trends and customer preferences.

The success of our new product launches is critical to maintaining our competitive position, expanding our customer base, and driving revenue growth. However, there is a risk that new products we launch may not be as successful as we anticipate, resulting in lower-than-expected demand, unsold inventory, and increased operational costs. The success of any new product depends on several factors, including accurate assessment of market demand, consumer preferences, competitive pricing, quality, timing of the launch, and effective marketing efforts. If we fail to properly anticipate market trends or customer preferences, or if competitors introduce similar products more effectively, our new products may fail to gain traction in the market. This could lead to poor sales performance, inventory build-up, and additional costs for promotions or discounts to clear unsold stock, which would adversely affect our cash flows and profitability.

Additionally, launching new product categories requires investment in research and development, marketing, and production capabilities, which may not always yield immediate or guaranteed returns. If customer reception to our new products is poor or if market demand shifts unexpectedly, the resources and capital we allocate to developing these products may not generate the anticipated returns, negatively impacting our financial condition and results of operations. In summary, failure of new product launches to meet market expectations or achieve the desired sales performance could result in lower revenues, increased costs, and reduced profitability, which would adversely affect our business, cash flows, results of operations, and financial condition.

15. *We have not entered into long-term contracts with our major customers and we operate on the basis of purchase orders, which could adversely affect our revenues and profitability.*

Our Company does not have long-term contracts or binding agreements with its major customers. We primarily operate on the basis of purchase orders, and a substantial part of our business comes from repeat orders and long-standing customer relationships. While this has provided stability in the past, it also exposes us to certain risks.

Any change in the buying pattern of our end users, reduction in order volumes, delay in placing orders, or disassociation by a major customer (or multiple significant customers) could adversely impact our revenues and cash flows. If we are unable to secure new orders on a consistent basis, our operations and profitability may be materially affected. Although we believe that we have maintained satisfactory business relationships and have continued to receive orders from our customers in the past, there can be no assurance that such relationships will continue in the future.

Further, our reliance on relationship-driven orders sometimes requires us to accept terms that are not commercially favorable. In certain cases, we have had to supply products at relatively lower margins to maintain long-term relationships. This limits our flexibility in pricing and may adversely affect our profitability. In addition, prioritizing the requirements of our existing customers may restrict our ability to explore new markets or acquire new customers, thereby constraining the growth potential of our business.

Although we have not experienced significant disruption in the past due to loss of customers or reduction in orders, we cannot assure that similar events will not occur in the future. Any such event could have a material adverse effect on our business, financial condition, results of operations, and growth prospects.

16. *Our business is dependent on the continued operation of our manufacturing facility and any loss of or shutdown of our manufacturing unit on any grounds could adversely affect our business or results of operations.*

Our business relies heavily on the continuous operation of our manufacturing facility. Any loss, shutdown, or prolonged disruption of this facility could have a material adverse impact on our production capacity, revenues, profitability, and overall financial condition.

Our manufacturing operations are subject to a variety of risks, including breakdown or failure of equipment, interruptions in power supply, shortages or delays in the procurement of raw materials, lower-than-expected output or efficiency levels, obsolescence of plant and machinery, labour disputes, strikes, lockouts, natural disasters, industrial accidents, and adverse weather conditions. In addition, our inability to adapt to technological advances, changes in industry practices, or evolving environmental and regulatory requirements—including directions from authorities such as the Gujarat Pollution Control Board (GPCB) may also disrupt our operations or increase compliance costs.

Although we have not experienced any such significant disruptions in the past and we take precautionary measures to mitigate these risks, there can be no assurance that such events will not occur in the future. Any material disruption at our manufacturing facility, whether temporary or permanent, could adversely affect our business operations, cash flows, and growth prospects, and may also negatively impact the trading price of our Equity Shares.

- 17. *Our business growth has been fueled by continuous technological advancements, and it forms an integral part of our business. Any failure of our information technology systems may paralyze our ability to compete effectively in the market, which may result in lower revenue, higher costs and would adversely affect our business and results of operations.***

The growth of our business has been driven by continuous investment in new machinery and technology. In 2022, our Company added eight machines, which enhanced production capacity and enabled us to meet larger order volumes. Further, under a Transfer Agreement dated September 27, 2024, we acquired machinery from our associate entities—*Abhishek Tex fab*, *Hardik Textile*, *Mansi Enterprise*, *Jalaram Enterprise*, and *Tripura Textile*. These investments have strengthened our domestic and international operations, improved product quality, and allowed us to diversify into fabrics for kurtas and other garment materials. For further details on plant and machinery, please refer to page 107 of the “Business Overview” chapter in this Draft Red Herring Prospectus.

We are highly dependent on machinery and information technology systems for efficient production, client and supplier communication, and product design development. Any breakdown, malfunction, or interruption in these systems may result in reduced production, delays in supply, or disruptions in customer communication. Persistent or recurring technological failures could also damage our reputation, cause loss of customers, and lead to diversion of business to competitors, which may materially and adversely affect our revenues, profitability, and operations.

Although we have not experienced any material failures of machinery or IT systems in the last three financial years and the current financial year, there can be no assurance that such failures will not occur in the future. Any such disruption could adversely impact our operational efficiency, financial performance, and growth prospects.

- 18. *A shortage or non-availability of electricity may adversely affect our manufacturing operations and have an adverse effect on our business, results of operations and financial condition.***

Our manufacturing operations depend on the continuous and reliable supply of electricity, given the significant power requirements of our production processes. At present, we source our electricity from Dakshin Gujarat Vij Company Limited. As on date, our total sanctioned power load is approximately 240 KW, and we also maintain certain backup facilities to mitigate supply disruptions.

Any shortage, interruption, or non-availability of electricity could materially impact our manufacturing operations, reduce production capacity, and adversely affect our revenues and profitability. If we are unable to arrange alternate sources of electricity in a timely manner and at a reasonable cost, our operations and financial performance may suffer.

Further, any increase in electricity tariffs or related charges by Dakshin Gujarat Vij Company Limited would increase our overall power costs. In such cases, we may not be able to fully pass on the higher costs to our customers, which could adversely impact our profit margins.

Although we have not faced significant electricity supply issues in the past and have taken precautionary measures, there can be no assurance that such disruptions or cost escalations will not occur in the future. Any sustained shortage or increase in power costs may materially and adversely affect our business, financial condition, results of operations, and future growth.

- 19. *We are subject to any frauds, theft, or embezzlement by our employees, suppliers, contractors or distributors, it could adversely affect our reputation, results of operations, financial condition and cash flows.***

Our operations may be subject to incidents of theft. We may also encounter some inventory loss on account of employee/ contractor/ distributor/ vendor fraud, theft, or embezzlement. We have set up various security measures in our manufacturing facility such as deployment of security guards and operational processes such as periodic stock taking. While there has not been any instance of fraud, misconduct, misrepresentation or mis selling by our employees in the last 3 financial years and the current financial year, there can be no assurance that we will not experience any fraud, theft, employee negligence, loss in transit or similar incidents in the future, which could adversely affect our reputation, results of operations, financial condition and cash flows.

20. *India has stringent labour legislations that protect the interests of workers, and if our employees unionize, we may be subject to industrial unrest, slowdowns and increased wage costs.*

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to state and local laws and regulations, governing our relationships with our employees, including those relating to minimum wage, bonus, gratuity, overtime, working conditions, recruitment and termination of employment, non-discrimination, work permits and employee benefits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and our business may be adversely affected. Further, if we are unable to negotiate with employees, it could result in work stoppages or increased operating costs as a result of higher than anticipated wages or benefits.

21. *Our international operations are subject to many uncertainties, and we are exposed to foreign currency exchange rate fluctuations.*

We are exporting our products to Singapore Thailand, Bahrain and Cambodia. Our company focuses on building long-term relationships with our customers in domestic as well as international markets. We plan to add customers in our existing markets as well as in new international markets. Our emphasis is on expanding the scale of our operations as well as growing our supply chain network, which we believe will provide attractive opportunities to grow our client base and revenues. Our part of the revenue consists of the foreign currency also. We are always subject to risks inherently associated with international operations, including risks associated with foreign currency exchange rate fluctuations, which may cause volatility in our reported income, and risks associated with the application and imposition of protective legislation and regulations relating to import or export or otherwise resulting from foreign policy or the variability of foreign economic conditions. Any fluctuations in foreign currency exchange rates may have direct impact on our profits, results of operations and cash flows and consequently on our business condition and profitability. We have not entered into any hedging arrangements to account for any adverse changes to the foreign currency exchange rate. Although the Company has not faced such issues in the past, it cannot guarantee that similar events will not occur in the future. Our international operations are subject to risks that are specific to each country and region in which we operate, as well as risks associated with international operations in general.

22. *Although we are not directly exposed to foreign exchange fluctuations, our export business conducted through merchant exporters and direct exports may be indirectly impacted by currency volatility, which could affect our volumes and profitability.*

Our Company exports its products both through merchant exporters and by way of direct exports. In the case of exports through merchant exporters, the contractual arrangements are typically denominated in Indian Rupees, which insulates us from direct foreign exchange exposure. However, fluctuations in foreign currency exchange rates can affect the competitiveness of Indian textile products in international markets. For instance, an appreciation of the Indian Rupee against major currencies could reduce the price advantage of our products, thereby impacting the overall export demand.

Further, merchant exporters may be directly impacted by adverse currency movements, which in turn may influence their procurement volumes from us, payment terms, or margins. In addition, in our direct export transactions, even where the currency risk is contractually passed on to the counterparty, currency volatility could lead to delays in order execution, renegotiation of terms, or lower realizations.

Any significant and prolonged currency fluctuations, particularly against the U.S. Dollar, could therefore adversely impact our export volumes, customer relationships, and overall profitability. While our Company has not faced material adverse effects from currency volatility in the past, there can be no assurance that such risks will not

materialize in the future.

For further details on our export operations, please refer to the chapter titled “Business Overview” on page 107 of this Draft Red Herring Prospectus.

23. *We may be unable to attract and retain employees with the requisite skills, expertise and experience, which would adversely affect our operations, business growth and financial results.*

We rely on the skills, expertise and experience of our employees to provide continuous and quality products to our clients. For instance, we require experienced employee to carry out quality checks and inspections at all stages of the manufacturing process of our products. The quality assurance team carries out frequent checks on the process and product specifications as per our quality assurance plans, prepared and issued by the technical team to ensure that the same meets industry standards. Our employees may terminate their employment with us prematurely and we may not be able to retain them. Although the Company has not faced such issues in the past, it cannot guarantee that similar events will not occur in the future

If we experience any failure to attract and retain competent personnel or any material increase in manpower costs as a result of the shortage of skilled manpower, our competitiveness and business would be damaged, thereby adversely affecting our financial condition and operating results. Further, if we fail to identify suitable replacements of our departed staff, our business and operation could be adversely affected and our future growth and expansions may be inhibited. To know about the existing manpower of the Company, please refer page no. 107, Human Resources, in the chapter titled “Business Overview” in the Draft Red Herring Prospectus.

24. *We are dependent on third party transportation service providers for delivery of raw materials from suppliers to us and delivery of finished products to our customers and business associates. Any failure on part of such transport service providers to meet their obligations could have a material adverse effect on our business, financial condition and results of operation.*

We purchase the raw materials such as yarn, from the market and manufacture fabrics in our factory and sale the same in the market, our success depends on the smooth supply and transportation of raw materials from our suppliers to our factory premises and supply of fabrics manufactured in our factory to our buyers/customers, both of which are subject to various uncertainties and risks.

Our products are transported by trucks, though we do not own any vehicles and rely on third-party transporters for logistics. Our logistics team is responsible for selecting transporters and negotiating freight rates. These transporters operate under annual fixed-rate contracts or work orders with specified terms and conditions. Freight rates may fluctuate due to changes in fuel prices. To minimize risk and prevent monopolies, each delivery route typically involves at least two transporters. The use of a sole transporter for any route is subject to the approval of the Head of Department and on a case-by-case basis.

In addition to this, the finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delays in delivery of such materials which may also affect our business and our results of operation negatively. Though we are having annual fixed rate contract, any failure to maintain a continuous supply of raw materials to our manufacturing unit and finished products to our clients in an efficient and reliable manner could have a material and adverse effect on our business, financial condition and results of operations and reputation. Although the Company has not faced such issues in the past, it cannot guarantee that similar events will not occur in the future. For further detail please refer page no 104, Logistics in the Chapter titled “Business Overview” in the Draft Red Herring Prospectus.

25. *Our revenue from operations is dependent upon a limited number of customers and the loss of any of these customers or loss of revenue from any of these customers could have a material adverse effect on our business, financial condition, results of operations and cash flows.*

We derive a significant portion of our revenue from key customers. The table below sets forth our revenue derived from our top One (1), top five (5) and top ten (10) customers for the Fiscal-2025, Fiscal 2024 and Fiscal 2023 respectively and its percentage of revenue from operations are given below.

(Rs. in Lakhs)

Period	Top 1 Customer		Top 5 Customers		Top 10 Customers	
	Amount	% To the total Revenue	Amount	% To the total Revenue	Amount	% To the total Revenue

Fiscal 2025	768.38	22.26	2296.65	66.54	2713.65	78.62
Fiscal 2024	270.64	25.58	972.11	91.88	1058.02	100.00
Fiscal 2023	588.20	40.89	1276.67	88.75	1432.25	99.57

The loss of any one or more of such key customers for any reason including due to failure to negotiate acceptable terms of purchase order, contract renewal, negotiations, disputes with customers, adverse change in the financial condition of such customers, including due to possible bankruptcy or liquidation or other financial hardship, merger or decline in their sales, reduced or delayed customer requirements, or work stoppages could have an adverse effect on our business, results of operations and financial condition.

26. *Our insurance coverage may not be sufficient or adequate to protect us against all material hazards, which may adversely affect our business, results of operations, financial condition and cash flows.*

Our operations are subject to risks inherent in fabric manufacturing activities such as risk of equipment failure, work accidents, fire, earthquakes, flood and other force majeure events and acts of terrorism that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. Our significant insurance policies consist of, among others, insurance policy for our plant & machinery stock and finished goods.

Our insurance may not be adequate to completely cover any or all of our risks and liabilities. Further, there is no assurance that the insurance premiums payable by us will be commercially viable or justifiable. Accordingly, our inability to maintain adequate insurance cover in connection with our business could adversely affect our operations and profitability.

We cannot assure you that, in the future, any claim under the insurance policies maintained by us will be honored fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. Further, an insurance claim once made could lead to an increase in our insurance premium, result in higher deductibles and also require us to spend towards addressing certain covenants specified by the insurance companies. We had no insurance claims that were receivable in last three Fiscals.

To the extent that we suffer loss or damage as a result of events for which we did not obtain or maintain insurance, or which is not covered by insurance, exceeds our insurance coverage or the amount received pursuant to an insurance claim, the loss would have to be borne by us and our results of operations, financial performance and cash flows could be adversely affected

27. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

Our Company has no experience as a public listed company or with the increased scrutiny of its affairs by shareholders, regulators and the public at large that is associated with being a public listed company. As a public company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted public company. Our Company will also be subject to the provisions of the listing related compliances which require us to file unaudited financial results on a half yearly basis. In order to meet our Company's financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

28. *Our Registered office and factory premises are on lease basis.*

Our Registered Office is located at Plot No. 28, Sai Ram Industrial Estate – 2, Bamroli Gam, Bamroli, Surat – 394107, Gujarat and our factory premises situated at Plot No. 16 and 23 to 27, Sai Ram Industrial Estate – 2, Bamroli Gam, Bamroli, Surat – 394107. The registered office and factory premises are not owned by us. Our company has taken these premises on lease basis for a period of 3 years w.e.f. September 01, 2024 from Nilesh Harivadan Gotawala and others, a promoter and promoter group. There can be no assurance that on completion of lease period the term of the agreements will be renewed and in the event the lessor/licensor terminates or does not renew the agreements on commercially acceptable terms, or at all, and we may require to vacate the registered office and factory premises, and to identify alternative premises and enter into fresh lease or leave and license agreement. Such

a situation could result in loss of business, time overruns and may adversely affect our production, business operations and profitability. It may be noted that there is interest of the promoter and member of the promoter group in lease agreement executed with the company for all the property taken on lease by the company.

25. Our Company has availed credit facilities that are subject to restrictive covenants, which may limit our flexibility and adversely affect our business operations.

Our Company has availed credit facilities from The Sutex Co-operative Bank Limited and Kotak Mahindra Bank. These include a term loan facility of ₹ 282.932 lakhs from The Sutex Co-operative Bank Limited for the purchase of machinery and a working capital limit of ₹ 20.00 lakhs from Kotak Mahindra Bank. The sanction terms of these facilities impose certain restrictive covenants on our Company, which we have accepted.

The key restrictions include, among others:

- Subscription to the share capital of The Sutex Co-operative Bank Limited at 2.50% of the loan amount.
- Maintenance of liquid security (such as NSC/KVP/LIC policies/FD/RBI Bonds) equivalent to 5.00% of the sanctioned loan amount in the custody of the bank.
- Penalty charges of 3.50% on the outstanding loan balance and sanctioned CC/OD limits if switched to another bank or financial institution within three years, and 2.00% if switched after three years, before release of mortgaged property documents or NOC.
- Mortgage properties are to be retained until full repayment of the loan.
- Unsecured loans of the Company/firm cannot be repaid until the due date of the proposed loan.
- Closure of bank accounts with Kotak Mahindra Bank (CD & OD accounts) and maintenance of all bank accounts exclusively with The Sutex Co-operative Bank Limited.
- Prior approval of the lending bank is required for any change in shareholding, directorship, ownership, or significant alteration in the management structure of the Company.

These restrictive covenants may limit our operational flexibility, delay or restrict strategic decisions, and place constraints on the manner in which we conduct our business. Any failure to comply with these conditions could result in the withdrawal of credit facilities, imposition of penalties, or enforcement of security by the lenders, which may adversely affect our business, financial condition, and results of operations.

29. Our Company, its Promoters, its directors and its group Companies are involved in litigation proceedings that may have a material adverse outcome.

As such only above-mentioned litigation filed by our Promoter & Director may not have a material effect on the working of the company. For further details, please refer to the section “**Outstanding Litigation and Material Developments**” beginning on page no. 204 of Draft Red Herring Prospectus.

30. Our Promoters/Directors have issued personal guarantees and/or mortgaged their property in relation to debt facilities availed by us, which if revoked, may require alternative guarantees, repayment of amounts due or termination of the facilities.

Our Promoters have provided their personal guarantees and/or mortgaged their property in relation to our secured debt facilities availed from The Sutex Co-operative Bank Limited and Kotak Mahindra Bank. In the event any of these guarantees are revoked or mortgaged properties are moved against, then the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. While we have not faced any revocation of such guarantees in the past, if any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. Further we may not be successful in procuring alternative guarantees satisfactory to the lenders and as a result, may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition. For further details, see “**Financial Indebtedness**” on page no. 199. of Draft Red Herring Prospectus.

31. Risk of Order Cancellations or Delayed Payments from Buyers.

Our business model is largely dependent on securing and executing purchase orders from domestic as well as international buyers. There is an inherent risk that such buyers may cancel or modify their orders due to changes in demand, fluctuations in market conditions, or internal business considerations. Since we typically procure raw materials, incur production expenses, and allocate manufacturing capacity based on confirmed orders, any large-scale cancellation or reduction in orders may leave us with excess inventory, underutilized resources, and unrecovered costs.

In addition, our business is exposed to the risk of delayed payments or defaults by buyers. The textile and fabric manufacturing industry is characterized by credit-based transactions, and in certain cases, extended credit periods are granted to maintain business relationships and competitiveness. Delays in collection or non-realization of receivables may strain our working capital, impact our cash flows, and increase our dependence on external borrowings to fund day-to-day operations. In the event of default, we may be required to initiate recovery proceedings, which could be time-consuming, costly, and may not guarantee full recovery of dues.

Further, the risk of payment delays or cancellations is heightened in export transactions due to cross-border regulatory factors, currency fluctuations, trade restrictions, and buyer insolvency in foreign jurisdictions. Even with the availability of mechanisms such as letters of credit or export credit insurance, there can be no assurance that we will always be able to fully mitigate these risks.

Order cancellations or payment delays by significant buyers could adversely impact our revenues, profitability, and liquidity position. If such events occur on a recurring basis, it may materially and adversely affect our business operations, financial condition, and results of operations.

32. Our Promoter and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

Post this Issue, our Promoter and Promoter Group will collectively hold [●] % of our equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying,

preventing or deterring a change in control of our Company. For further details, see “*Capital Structure*” on page no. 62 of Draft Red Herring Prospectus.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

33. ***We are required to obtain, renew or maintain statutory and regulatory permits, licenses and approvals to operate our business and our manufacturing facility, and any delay or inability in obtaining, renewing or maintaining such permits, licenses and approvals could result in an adverse effect on our results of operations.***

Although we have obtained all material approvals, licenses, and permits necessary to carry on our business activities as on the date of this Draft Red Herring Prospectus, most of these approvals are valid only for a specified period and are subject to renewal upon expiry. Our ability to continue business operations is contingent on the timely renewal of such approvals from the relevant statutory and regulatory authorities.

There can be no assurance that the concerned authorities will renew or extend such approvals within the expected time frame or on terms and conditions favourable to us. Any delay in obtaining renewals, imposition of additional conditions, or rejection of applications may disrupt our operations, increase compliance costs, or even result in the suspension of certain business activities. Such an outcome could adversely impact our production schedule, sales commitments, and overall reputation in the market.

Further, our failure to obtain or renew approvals in a timely manner may expose us to penalties, fines, or other regulatory actions. In addition, changes in applicable laws, regulations, or government policies may result in new approval requirements or stricter compliance obligations, which may further increase operational risks.

Accordingly, non-renewal or delayed renewal of such licenses, permits, and approvals could have a material adverse effect on our business operations, financial condition, results of operations, and prospects.

34. ***The  Trademark of is registered in the name of Mr. Nilesh Gotawala i.e. Director of the Company. Form TM-P for request of Subsequent proprietor by way of assignment or transfer of Trademark in name of Harikanta Overseas Private Limited have been filed by the Company.***

We have our corporate logo in the name and style of  under class 24 and class 25, but the same are not registered with the Trademarks and patents Authority in the name of our company. Both the above trademarks were registered in the name of Mr. Nilesh Gotawala i.e. Director of the Company. Such event will affect our reputation, business and profitability adversely. For further details, see “*Government and Other Regulatory approval*” on page no. 209 of Draft Red Herring Prospectus.

35. ***We are dependent upon the experience and skill of our promoter, management team and key managerial personnel and senior management personnel. Loss of our Promoter or our inability to attract or retain such qualified personnel, could adversely affect our business, results of operations and financial condition.***

We believe that our Promoters have played a key role in the development of our business and we benefit from their industry knowledge and expertise, vision and leadership. Our Promoters have strong operational knowledge, good relationships with our clients and a successful track record of executing growth plans. In addition to our Promoter, our key management and senior management team includes qualified, experienced and skilled professionals who possess requisite experience across various aspects of our business. We believe the stability of our management team and the industry experience brought on by our individual Promoters enables us to continue to take advantage of future market opportunities. We believe that our senior management team is well qualified to leverage our market position with their collective experience and knowledge in the textile fabric manufacturing business, to execute our business strategies and drive our future growth. For further detail on the experience and skill of our promoters and

directors, key managerial personnel and senior management personnel, please refer page no 139 of the Chapter Titled “Our Management” in the Draft Red Herring Prospectus.

Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled professionals. The loss of the services of our key personnel or our inability to recruit or train sufficient number of experienced personnel or our inability to manage the attrition levels in different employee categories may have an adverse effect on our financial results and business prospects.

If we are unable to hire additional qualified personnel or retain them, our ability to expand our business may be impacted. Our Company’s profitability, financial condition and results of operations may also be impacted due to lack of experienced and talented workforce. As we intend to continue to expand our operations and develop new Countries, we will be required to continue to attract and retain experienced personnel. There can be no assurance that our competitors will not offer better compensation incentives and other perquisites to such skilled personnel.

36. *We may not be able to successfully manage the growth of our operations and execute our growth strategies which may have an adverse effect on our business, financial condition, results of operations and future prospects.*

As we continue to grow, we must continue to improve our managerial, technical and operational knowledge and allocation of resources, and implement an effective management information system. In order to fund our ongoing operations and future growth, we need to have sufficient internal sources of liquidity or access to additional financing from external sources, including debt or equity. For further details on our strategies, see “**Business Overview –Strategies**” on page no. 112 of Draft Red Herring Prospectus. Further, we will be required to manage relationships with a number of clients, suppliers, contractors, service providers, lenders and other third parties. We will need to further strengthen our internal control and compliance functions to ensure that we will be able to comply with our legal and contractual obligations and minimize our operational and compliance risks. There can be no assurance that we will not suffer from capital constraints, operational difficulties or difficulties in expanding existing business and operations and training an increasing number of personnel to manage and operate the expanded business. There can be no assurance that we will be able to successfully manage our growth, strategies or that our expansion plans will not adversely affect our existing operations and thereby have an adverse effect on our business, financial condition, results of operations and prospects.

Further, we could also encounter difficulties and delays in executing our growth strategies due to a number of factors, including, unavailability of human and capital resources, inability to develop adequate systems, getting necessary permissions from the concerned authorities, delayed payments or non-payments by clients, other unforeseen situations or difficulties may result in delay in the execution of our business in new segment as well as new geographical area. There can be no assurance that we will be able to execute our growth strategy on time and within the estimated costs, or that we will meet the expectations of our clients.

37. *We operate in a competitive business environment. Competition from existing players and new entrants and consequent pricing pressures may adversely affect our business, financial condition and results of operations.*

We face significant competition in our business from the organized and unorganized units. We operate in a highly competitive business environment. Growing competition in the domestic market from domestic organized and unorganized players and/or the international players, we are subject to pricing pressures and require us to reduce the prices of our products in order to retain the existing customers and/or attract new customers, which may have a material adverse effect on our revenues and margins. The company has successfully entered the manufacturing sector for products with significant market demand, establishing a strong presence in the industry. However, we face intense competition from a mix of established brands, emerging designers, and local manufacturers. This diverse landscape drives competition in both quality and pricing. One of the primary challenges we encounter is the cost of manufacturing. Some competitors have in-house yarn manufacturing units, which allows them to reduce their production costs significantly. This vertical integration gives them a competitive edge in pricing, making it essential for us to explore strategies to enhance our own efficiency and cost-effectiveness. There can be no assurance that we can continue to compete effectively with our competitors in the future, any failure to compete effectively may have an adverse effect on our business, financial condition and results of operations. In addition to this, as a result of the intense competition and accelerated innovation in the in the Textile fabric Industry, our ability to achieve and maintain profitability depends on a number of factors, including our investment in assets-based module and development, expanding the manufacturing activities including backward integration and the pricing levels of our competitors, some of which is beyond our control. If we fail to compete effectively in the future, our business and prospects could be materially and adversely affected.

- 38. *The average cost of acquisition of Equity Shares held by our Promoters is lower than the Issue Price, which may result in perceived disparity for investors.***

The average cost of acquisition of Equity Shares held by our Promoters in our Company is ₹ 7.73 per Equity Share, which is significantly lower than the Issue Price proposed to be determined on a fixed price basis for this Issue. As a result, our Promoters will be able to realize a return on their investment even if there is a decline in the market price of our Equity Shares after listing, provided such price is above their average cost of acquisition.

Further, investors subscribing to the Equity Shares in this Issue may face an immediate dilution in the value of their investments compared to the cost of acquisition incurred by our Promoters. This may create a perception of inequality between the Promoters and public investors, and may adversely affect the market price of our Equity Shares.

For further details regarding the average cost of acquisition of Equity Shares by our Promoters and the build-up of their shareholding in our Company, please refer to the chapter titled “**Capital Structure**” on page 62 of this Draft Red Herring Prospectus.

- 39. *Our Promoters, Directors and Key Managerial Personnel may have interest in our Company, other than reimbursement of expenses incurred or remuneration.***

Our Promoters and Directors and key Managerial Personnel may be deemed to be interested to the extent of the Equity Shares held by them and benefits deriving from their shareholding in our Company. Our Promoters are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Entities. For further details, please refer to the chapters titled “Business Overview” and “Our Promoters and Promoter Group”, beginning on page no. 107 and 152 respectively and the chapter titled “**Note AE - Statement of Related Party Transactions**” on page no. 184 under chapter titled “Restated Financial Statements” beginning on page no. 158 of this Draft Red Herring Prospectus

- 40. *We have unsecured loans from promoters, directors and their relatives, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our liquidity and business operations.***

As per our restated financial statements, as on March 31, 2025, we have unsecured loan of ₹ 3.25 lakhs from erstwhile promoters, directors, relatives of directors and Companies in which directors are interested or relatives of the directors are interested which is repayable on demand. - 41. *We have entered into certain transactions with related parties. These transactions or any future transactions with our related parties could potentially involve conflicts of interest.***

We have entered into certain transactions with related parties which are in compliance with Company Law and other applicable laws with our Promoters, Promoter Group, Directors and may continue to do so in future. Our Company has entered into such transactions due to easy proximity and quick execution. However, there is no assurance that we could have obtained better and more favourable terms than from transaction with related parties. Additionally, our company belief that all our related party transactions have been conducted on an arm’s length basis, but we cannot provide assurance that we could have achieved more favourable terms had such transactions been entered with third parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations, although going forward, all related party transactions that we may enter will be subject to board or shareholder approval, as under the Companies Act, 2013 and the Listing Regulations. For details of transactions, please refer to “**Note-AE**” **Related Party Transactions**” on page no. 184 of Restated Financial Information.

- 42. *We have not identified any alternate source of financing the ‘Objects of the Issue’. If we fail to mobilize resources as per our plans, our growth plans may be affected.***

further details of object of Issue and schedule of implementation please refer to the chapter titled “Objects of the Issue” on page no. 74 of this Draft Red Herring Prospectus.

43. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

44. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed fund requirement, for funding our working capital requirements, expansion and part repayment of debt, primarily, as detailed in the chapter titled “Objects of the Issue” beginning on page no. 74 of this Draft Red Herring Prospectus is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We, therefore, cannot assure that we would be able to execute our future plans/strategy within the estimated time frame.

45. *We have not independently verified certain data in this Draft Red Herring Prospectus.*

We have not independently verified data from the industry and related data contained in this Draft Red Herring Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

46. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.*

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions and have not been appraised by any bank or financial institution or another independent agency. Furthermore, in the absence of such independent appraisal, our funding requirements may be changed subject to the approval of shareholders by passing special resolution pursuant to section 27 of Companies Act, 2013 through postal ballot or subject to an authority given by the Company in general meeting by way of special resolution. The deployment of the funds as stated under chapter “Objects of the Offer” is at the discretion of our Board of Directors and will be subject to monitoring by an external independent agency appointed for the purpose. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter “Objects of the Offer” will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings. For further details, please see the section titled “Objects of the Issue” beginning on page no. 74 of this Draft Red Herring Prospectus.

47. *Any future issuance of Equity Shares may dilute the shareholding of the Investor or any sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any future issuance of Equity Shares by our Company could dilute the shareholding of the investor. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. While the entire post-Issue paid-up share capital, held by our Promoters or other shareholders will be locked-in for a period of 1 (one) year and minimum promoter contribution subject to a minimum of 20% of our post-Issue paid-up capital will be locked-in for a period of 3 (three) years from the date of allotment of Equity Shares in

the Issue, upon listing of our Equity Shares on the Stock Exchanges. For further information relating to such Equity Shares that will be locked-in, please refer to the section titled “Capital Structure” beginning on page no. 62 of this Draft Red Herring Prospectus. Any future issuance or sale of the equity shares of our Company by our Promoter or by other significant shareholder(s) or any perception or belief that such sales of Equity Shares might occur may significantly affect the trading price of our Equity Shares.

48. *The issue price of the Equity Shares may not be indicative of market price of our equity shares after the issue and the market price of our Equity shares may decline below the issue price.*

The Issue Price of our Equity Shares has been determined after considering a range of qualitative and quantitative factors, such as the progress achieved by our Company in building its presence in the fabric manufacturing segment, prevailing industry trends, growth prospects, financial performance, and other relevant business parameters. For a detailed discussion, please refer to the chapter titled “Basis for Issue Price” beginning on page 87 of this Draft Red Herring Prospectus.

However, the market price of our Equity Shares post-listing will depend on a number of external factors, including investor perception, demand and supply dynamics, trading volumes, overall market conditions, and economic developments. There is no assurance that the Equity Shares will trade at or above the Issue Price. Consequently, investors may face the risk of the market price of the Equity Shares falling below the Issue Price, resulting in a loss on their investment.

49. *Sale of shares by our promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

The sale of shares by the promoters or other significant shareholder(s) may significantly affect the trading price of our Equity shares. Further the market price generally may be adversely affected on account of the news about the sale of shares by the promoters. However, the closing of trading windows during the period of financial results may restrict the promoters from selling the shares in the open market.

50. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

51. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

52. *The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities

markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

53. *There are restrictions on daily weekly monthly movement in the price of the equity shares, which may adversely affect the shareholder's ability to sell for the price at which it can sell, equity shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI. The percentage limit on circuit breakers is said by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchange does not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of the circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

EXTERNAL RISK FACTORS

After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.

The price of the Equity Shares on the stock exchange may fluctuate as a result of the factors, including:

- Volatility in the India and global capital market;
- Company's results of operations and financial performance;
- Performance of Company's competitors;
- Adverse media reports on Company;
- Changes in our estimates of performance or recommendations by financial analysts;
- Significant developments in India's economic and fiscal policies; and
- Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

1. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, change in regulatory framework, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism.

2. *Any changes in the regulatory framework could adversely affect our operations and growth prospects*

Our Company is subject to various regulations and policies. For details see section titled "Key Industry Regulations and Policies" beginning on page no. 124 of this Draft Red Herring Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse effect on our business, financial condition and results of operations.

3. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance*

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity

of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

4. *Major portion of Revenue is derived from business in India and a decrease in economic growth in India could materially affect and cause our business to suffer.*

We derive major portion of our revenue from our operations in India and, consequently, our performance and the quality and growth of our business are dependent on the health of the economy of India. However, the Indian economy may be adversely affected by factors such as adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities or interest rates changes, which may also affect the microfinance industry. Any such factor may contribute to a decrease in economic growth in India which could adversely impact our business and financial performance.

5. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Book Running Lead Manager have appointed Aftertrade Broking Private Limited as Designated Market maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments.

6. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse impact on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that impact our industry include income tax and GST and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. There can be no assurance that these tax rates/slab will continue in the future. Any changes in these tax rates/slabs could adversely affect our financial condition and results of operations.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of 20.00 to 24.00 per share, Issue size of [●] Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Amount (₹)	Cumulative Quantity	Subscription
500	24.00	500	16.67 %
1000	23.00	1500	50.00 %
1500	22.00	3000	100.00 %
2000	21.00	5000	166.67 %
2500	20.00	7500	250.00 %

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

INTRODUCTION

India’s textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, with the capital-intensive sophisticated mills sector at the other end. The fundamental strength of the textile industry in India is its strong production base of a wide range of fibre/yarns from natural fibres like cotton, jute, silk, and wool, to synthetic/man-made fibres like polyester, viscose, nylon and acrylic.

The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India’s textiles industry has a capacity to produce a wide variety of products suitable for different market segments, both within India and across the world.

The organised retail apparel sector is projected to achieve revenue growth of 8-10% in FY25, driven by rising demand from a normal monsoon, easing inflation, and the festive and wedding seasons.

The increasing preference for affordable, trendy fashion clothing that mimics high-fashion designs is expected to be the primary revenue driver. In order to attract private equity and employee more people, the government introduced various schemes such as the Scheme for Integrated Textile Parks (SITP), Technology Upgradation Fund Scheme (TUFS) and Mega Integrated Textile Region and Apparel (MITRA) Park scheme.

KEY SEGMENTS OF THE TEXTILE INDUSTRY

EVOLUTION OF THE INDIAN TEXTILE SECTOR

(Source: Textiles Industry Report, February 2025, https://www.ibef.org/download/1744102589_Textiles-and-Apparel-February-2025.pdf)

INDIA'S TEXTILE INDUSTRY: EMBRACING SUSTAINABILITY AND INNOVATION

The Indian textile industry has been an important part of the economy and culture. It has experienced many developments start from its origin as handlooms in villages to significant modern-day advanced textile mills. The textile industry captures a unique place in India. One of the earliest to come into existence in the country, currently it accounts for 13% of the total industrial production, 12% to total exports, 2.3% to the country's GDP and is the second-largest employment generator.

But the industry also faces environmental challenges, such as heavy waste and toxic materials into the environment, making it one of the most challenging manufacturing value chains in India. To solve these concerns, India's textile industry is implementing different techniques such as

circular fashion and adoption of renewable energy, to become more sustainable and efficient.

SUSTAINABLE MANUFACTURING OF TEXTILE IN INDIA

India's speedy economic growth, boosted by government programmes, including 'Make in India', has pushed the textile industry's development. This growth has also raised concerns over the sector's impact on environment. The government is responding to this issue by introducing policies focused on promoting sustainable manufacturing, understanding the need to balance production demands with environmental responsibility.

Manufacturers have actively adopted sustainable processes, such as recycling, water conservation and the production of bio-friendly textiles. Nevertheless, the industry is figuring various approaches to further enhance sustainability, including regenerative organic farming, plastic recycling, along with governmental schemes, for instance the 'Mega Investment Textiles Parks (MITRA)', which aim to enable more affordable and accessible sustainable manufacturing practices.

Some of the major Indian manufacturers have also started adopting sustainable practices and initiatives such as:

❖ **Recycling and Upcycling**

India's textile companies are implementing a culture of recycling and upcycling (where pre- or post-consumer textile waste material is converted into new garments) into their manufacturing practices. Many companies are using their waste and converting it into unique garments, thereby contributing to the global circular economy. A few Indian brands, including Pomogrenade, The Second Life and Patch over Patch, have implemented this sustainable concept of upcycling.

❖ **Using solar energy**

The extreme energy utilization in the textile industry and high use of fossil fuels are key concerns. However, many textile factories are progressively installing rooftop solar panels, which not only reduce the usage of fossil fuels but also promotes energy efficiency.

❖ **Eco-conscious water management and dyeing process**

The excessive wastewater generation in the industry is a big concern, but in recent times Indian manufacturers are addressing this through innovative solutions. Some companies are reusing wastewater in their manufacturing processes and applying water recycling systems, which reduce their overall water footprint and promote water management in the sector.

❖ **Innovation in textile industry**

The Indian textile industry has experienced a transformational shift, with evolving technology as a driving force for innovation. Traditional methods are now combined with modern-edge advancements, exposing new abilities within the industry from the invention of spinning machines to synthetic fibres, with each innovation playing an important role in improving efficiency and productivity. Advanced machinery, automation and agile production methods have further advanced the industry's capabilities, positioning it for continued success in the years to come.

● **3D printing:**

3D printing offers improved flexibility in yarn processing and textile design, enabling unique and customised products. Digital printing has been gaining popularity, enhancing the industry's capabilities.

● **Pleating technology and Nanotechnology:**

Pleating technology is the process of folding fabric into different shapes, creating differences in the volume and better texture of the fabric. Nanotechnology allows more efficient, water-resistant and low-maintenance production procedures, addressing energy concerns.

● **Artificial intelligence in design:**

Artificial Intelligence (AI) is becoming a part of the textile industry, renovating the designing process. Machine learning algorithms now analyse extensive datasets, empowering designers to create innovative and trending patterns. This technology confirms that the industry remains at the forefront of evolving consumer preferences.

● **Biodegradable textiles:**

Textile industry is also responding to the growing issue over waste management by using biodegradable fabrics. Advancement in material science has supported the development of textiles that naturally decompose, reducing the environmental impact. This transition displays the industry's commitment to sustainability and its efforts to minimise the ecological footprint of textile production and consumption.

THE TEXTILE AND APPAREL EXPORTS OF INDIA

The Indian Textile and Apparel Industry is valued at over US\$ 100 billion, employing over 45 million people and accounting for 14% of the country's industrial production. India is a global leader in producing several textile products, such as being the second biggest producer of silk, cotton and Multimode Fibre (MMF). It is also a world leader in jute production, accounting for nearly 70% of global production. Additionally, based on capacity, the country has the second largest vertically integrated production base after China. This leadership position gives the country significant advantages, such as manufacturing strength across the value chain and a huge raw material base. The value chain includes weaving, spinning, garmenting and processing.

The Confederation of Indian Industry (CII) expects the industry to achieve a production level of US\$ 250 billion by FY25, rising at a Compounded Annual Growth Rate (CAGR) of 12% between FY22 and FY25. In terms of exports, the CII expects industry exports to increase at a CAGR of 15% and reach US\$ 185 billion by FY25. This target would help India double its share of the global textile and apparel trade from the current level of 5%. Growth is expected to be driven by demographic dividend, an increasing tendency to spend more on lifestyle products, and the spread of e-retailing and organised retailing in smaller towns and rural areas, thus boosting domestic demand. The growth in the industry will maximise value creation and employment generation and boost investment of approximately US\$ 180 billion in the industry.

- ❖ In the coming decade, Africa and Latin America could very well turn out to be the key markets for Indian textiles.
- ❖ In July, India witnessed a 4.73% growth in its textile and apparel exports, amounting to US\$ 2,937.56 million. This increase was primarily fueled by a rising demand for apparel, especially from the United States, European Union, and United Kingdom. The Confederation of Indian Textile Industry (CITI) anticipates continued expansion in the forthcoming months.

Our product portfolio includes Ikat fabrics, polyester garment fabrics, saree fabrics, dhupion fabrics, poly linen, and natural fiber. We primarily cater fabric to women’s wear, producing fabrics for sarees, dress materials, and kurtas, while also offering fabrics for men’s kurtas. Although our fabrics have multiple end uses, the majority of them are utilized in the manufacturing of different types of sarees.

The origins of our business can be traced back to our Promoters’ grandfather, Mr. Harivadan Gangaram Gotawala, who laid the foundation by operating manual power looms from his residence. Over time, the enterprise was expanded by his son, Mr. Kamlesh Gotawala, who scaled up operations and established a stronger market presence. Following his untimely demise in 1997, his brother, Mr. Nilesh Gotawala, assumed responsibility for the business and continued to nurture and grow its operations.

The next generation—Mr. Hardik Gotawala, son of Kamlesh Gotawala, and Mr. Abhishek Gotawala, son of Nilesh Gotawala—subsequently joined the family enterprise. They brought with them fresh ideas, energy, and a focus on efficiency and modern production practices. Their active involvement contributed to enhanced productivity, diversification of the product range, and the transformation of the business into a broader textile manufacturing enterprise.

Today, under the vision and combined experience of Mr. Hardik Gotawala, Mr. Abhishek Gotawala, and Mr. Nilesh Gotawala, the Company has evolved into a diversified manufacturer of textile products while strengthening its domestic presence through its associate concerns. TECHNOLOGY

Our business growth has been supported by investments in technology and the modernization of our manufacturing facilities. To expand our fabric range, the Company installed Jacquard Rapier Loom (High Speed), Jacquard Rapier Loom – 2600 (Low Speed), Jacquard Rapier Loom – 1400 (Low Speed), and Rapier Machines. These installations enabled the production of fabrics including kurtas, sarees, and garment materials, while increasing production capacity. The installation of these machines allowed the Company to improve weaving speed, reduce wastage, and maintain precision in fabric design. In 2022, the Company purchased an 8 additional machine, which increased overall capacity and supported to complete the larger order volumes. And also our Company has purchased machinery pursuant to a Transfer Agreement dated September 27, 2024, with its associate entities—Abhishek Textfab, Hardik Textile, Mansi Enterprise, Jalaram Enterprise, and Tripura Textile. These technological investments have supported the Company’s operations in both domestic and international markets.

MANUFACTURING PROCESS

Note: Certain steps in above manufacturing process might vary for different products.

Manufacturing Process

The Company is engaged in the manufacturing of textile fabrics, which involves a series of integrated processes to convert raw yarn into finished fabrics. The key stages of the process are as follows:

1. Procurement of Raw Material

The foundation of our production process lies in sourcing high-quality raw materials from trusted and reliable suppliers. To maintain consistency in fabric quality and meet diverse customer requirements, we place significant emphasis on procuring high quality yarns that offer strength, durability, and the right texture for our end products.

The principal types of yarns used as raw materials in our manufacturing process include:

- a. **Lichi Poly Dyed Yarn** – commonly used for creating vibrant and durable fabrics with a rich finish.
- b. **TPM Poly Yarn** – valued for its strength and ability to maintain fabric structure.
- c. **Texturized Poly Yarn** – used for producing fabrics with enhanced texture, softness, and elasticity.
- d. **Air Tex Yarn** – preferred for lightweight fabrics with improved breathability.
- e. **Natural Fiber Yarn** – selected to blend traditional appeal with comfort, often used in fabrics where a natural touch and feel are required.

By carefully selecting and combining these yarns, we ensure that our finished products meet both domestic and international standards of quality.

2. Checking of Raw Material – Weight, Quantity, and Quality

Upon receipt, all raw materials undergo a careful inspection to verify their weight, quantity, and quality. This step is essential to ensure that the yarn complies with the required specifications and production standards before it proceeds to the next stage of manufacturing.

3. Warping of Yarn onto the Machine

The yarn is prepared for weaving by **arranging it on a warp beam**, where it is wound in a specific sequence and under controlled tension. This step is crucial, as it ensures uniformity and consistency in the weaving process that follows.

4. Threading of Yarn Rolls Before Installation

Before weaving begins, the yarn rolls are mounted on the machine and carefully threaded through essential components such as the **heddles** and **reed**. This precise alignment is vital to ensure smooth operation and accuracy during the weaving process.

5. Weaving Process

In the weaving stage, the machine interlaces the **warp and weft yarns** to produce the desired fabric. Based on the design and specifications, different patterns and techniques are applied, allowing the creation of a wide variety of fabric types.

6. Checking of Finished fabrics:

Quality Inspection: Each fabric batch undergoes a thorough check for weaving defects, color uniformity, and visual appeal.

Measurement Verification: Dimensions including width, length, and weight are cross-checked against specifications.

7. Finishing Process:

- **Rolling:** Fabrics are rolled onto large rolls for handling and storage.
- **Thread Cutting:** Loose or excess threads are trimmed to improve the final look.
- **Overlooping:** Fabric edges are treated to prevent fraying and maintain durability.

8. Final Quality Check

- Once the fabrics return from finishing, a **final inspection** is carried out.
- This includes verifying the effectiveness of finishing treatments and ensuring adherence to customer requirements and industry standards.

9. GSM Checking

- The **GSM (grams per square meter)** of the fabric is measured.
- This step is critical for confirming fabric weight, durability, and suitability for its intended applications.

10. Cutting, Rolling, and Folding

- Fabrics are cut into the required lengths and rolled neatly to facilitate shipment or storage.
- Where needed, fabrics are **folded carefully** to reduce creasing and ensure they are ready for packaging and delivery.

COMPETITION

The synthetic fabric market in India is characterized by competition between the organized and unorganized sectors. The **organized sector** comprises large-scale manufacturers which utilize advanced machinery, adhere to international quality standards, and cater to both domestic and international markets. This sector benefits from standardized production, technological efficiency, and regulatory compliance but faces high operational costs and stiff price competition from smaller units. In contrast, **the unorganized sector includes** small-scale factories, handloom units, and artisans, particularly in regions like Surat and Bhivandi. These units operate with low capital investment, offering flexibility, customization, and local market reach, while providing employment to a large workforce. However, they often struggle with inconsistent quality, limited access to modern technology, and regulatory challenges. Overall, the competition is shaped by the organized sector's technological edge and scale, balanced against the unorganized sector's cost advantage and adaptability, with both segments playing a crucial role in meeting India's growing demand for synthetic fabrics.

The company has successfully entered the manufacturing sector for products with significant market demand, establishing a strong presence in the industry. However, we face intense competition from a mix of established brands, emerging designers, and local manufacturers. This diverse landscape drives competition in both quality and pricing.

One of the primary challenges we encounter is the cost of manufacturing. Some competitors have in-house yarn manufacturing unit, which allows them to reduce their production costs significantly. This vertical integration gives them a competitive edge in pricing, making it essential for us to explore strategies to enhance our own efficiency and cost-effectiveness.

Transportation

For exports, goods are shipped via air freight and sea routes. The Company forwards consignments to its customs agent in Mumbai, who facilitates export to the customer's destination. The logistics team is responsible for selecting transporters and negotiating freight rates. The Company transports its products by road through trucks; however, it does not own any vehicles and relies on third-party transporters for logistics. Transporters are engaged either under annual fixed-rate contracts or through work orders with defined terms and conditions. Freight rates remain subject to fluctuation, primarily due to changes in fuel prices.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year."

B. Use of estimates

The preparation of financial statements requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expense during the year. Examples of such estimates include provisions for doubtful receivables, provision for income taxes, the useful lives of depreciable Property, Plant and Equipment and provision for impairment. Future results could differ due to changes in these estimates and the difference between the actual result and the estimates are recognised in the period in which the results are known / materialise.

C. Property, Plant and Equipment

All items of property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any.

Subsequent costs are included in the carrying amount of asset or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the year in which they are incurred. Gains or losses arising on retirement or disposal of assets are recognized in the Statement of Profit and Loss."

D. Depreciation / Amortisation

In respect of Property, Plant and Equipment acquired during the year, depreciation/amortisation is charged on a Write Down method so as to write-off the cost of the assets over the useful lives as specified in schedule II of the Companies Act 2013.

E. Leases

Assets taken on lease by the Company in its capacity as lessee, where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such a lease is capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight-line basis.

F. Impairment

At each balance sheet date, the management reviews the carrying amounts of its assets included in each cash generating unit to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset. Reversal of impairment loss is recognised as income in the statement of profit and loss.

G. Investments

Long-term investments and current maturities of long-term investments are stated at cost, less provision for other than temporary diminution in value. Current investments, except for current maturities of long-term investments, comprising investments in mutual funds, government securities and bonds are stated at the lower of cost and fair value.

H. Employee Benefits

a) Post-employment benefit plans

Contributions to defined contribution retirement benefit schemes are recognised as expense when employees have rendered services entitling them to such benefits.

For defined benefit schemes, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in full in the statement of profit and loss for the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested, or amortised on a straight-line basis over the average period until the benefits become vested.

The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, and as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

b) Other employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the service. These benefits include compensated absences such as paid annual leave, overseas social security contributions and performance incentives.

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

I. Revenue recognition

Revenue from the EPC and Solar Panel - Manufacture are recognised, when significant risks and rewards of ownership of the goods have passed to the buyer which coincides with delivery and are recorded net of trade discounts. Revenue are stated at net of returns and GST.

Dividend is recorded when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.

Interest income is recognised on time proportion basis taking into account amount outstanding and the applicable interest rate.

J. Taxation

Current income tax expense comprises taxes on income from operations in India and in foreign jurisdictions. Income tax payable in India is determined in accordance with the provisions of the Income Tax Act, 1961. Tax expense relating to foreign operations is determined in accordance with tax laws applicable in countries where such operations are domiciled.

Deferred tax expense or benefit is recognised on timing differences being the difference between taxable income and accounting income that originate in one period and is likely to reverse in one or more subsequent periods. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction for relevant tax paying units and where the Company is able to and intends to settle the asset and liability on a net basis.

The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

K. Foreign currency transactions

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities other than net investments in non-integral foreign operations are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses are recognised in the statement of profit and loss. Exchange difference arising on a monetary item that, in substance, forms part of an enterprise's net investments in a non-integral foreign operation are accumulated in a foreign currency translation reserve.

L. Inventories

Raw materials are carried at the lower of cost and net realisable value. Cost is determined on a FIFO basis. Purchased goods-in-transit are carried at cost. Work-in-progress is carried at the lower of cost and net realisable value. Stores and spare parts are carried at lower of cost and net realisable value. Finished goods produced or

purchased by the Company are carried at cost. Cost is determined on a FIFO basis. Cost includes direct material and labour cost and a proportion of manufacturing overheads.

M. Provisions, Contingent liabilities and Contingent assets

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e., contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation.

N. Cash and cash equivalents

Cash and cash equivalents comprise of cash in hand and balances with bank and other short term deposits / investments, that are readily convertible into known amounts of cash and are subject to insignificant risk of changes in value.

O. Cash flow statement

Cash flows are reported using indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

P. Borrowing Cost

Borrowing costs include interest and amortization of ancillary costs incurred. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the borrowing. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the year from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. Other borrowing costs are charged to the Restated Summary Statement of Profit and Loss in which they are incurred.

Q. Earning Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the reporting period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

- Basic earnings per share (Rs.) :- Profit attributable to owner of the group as restated for calculating basic EPS / Weighted average number of equity shares outstanding at the end of the period or year.
- Diluted earnings per share (Rs.) :- Profit attributable to owner of the group as restated for calculating diluted EPS / Weighted average number of equity shares outstanding at the end of the period or year for diluted EPS.
- Return on net worth (%) :- Net profit after tax (as restated) / Net worth at the end of the period or year.

The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year. Further while computing weighted average number of equity shares for the three financial years, the bonus issue of 6:1 equity shares allotted to the shareholders, through Board Meeting during the financial year ended March 2025 has been considered.

- 3) Net worth for ratios mentioned in note 1(c) and 1(d) is = Equity shares capital + Reserves and surplus (including, Securities Premium, General Reserve and surplus in statement of profit and loss) (Excluding Minorities Interest)
- 4) The figures disclosed above are based on the restated summary statements of the Company.

b) Defined benefit plan - Gratuity

The gratuity liability arises on retirement, withdrawal, resignation and death of an employee. The aforesaid liability is calculated on the basis of fifteen days salary (i.e. last drawn basic salary) for each completed year of service subject to completion of five years' service.

Risks associated with Plan Provisions

Risks associated with the plan provisions are actuarial risks. These risks are:- (i) interest risk (discount rate risk), (ii) mortality risk and (iii) salary risk

- Interest risk (discount rate risk)

A decrease in the bond interest rate (discount rate) will increase the plan liability.

- Mortality risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality ultimate table. A change in mortality rate will have a bearing on the plan's liability.

- Salary risk

The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

The following tables summarise the components of net benefit expense recognized in the statement of profit and loss and amounts recognized in the balance sheet for the gratuity plan.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("FDI") through press notes and press releases. The DIPP, has issued consolidated FDI Policy Circular of 2020 ("FDI Policy 2020"), effective from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular.

The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI and Master Direction – Foreign Investment in India (updated upto March 08, 2019). In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular and Master Direction. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

In case of investment in sectors through Government Route, approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2020 has to be obtained.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP / RBI, from time to time.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2020 and amendments from time to time thereupon, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, 3, 6, 7, 8, 9, 10 and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017 as amended from time to time. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral /statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral /statutory cap.

The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.
