For Portfolio Management Services - The value of the portfolio investments may be affected generally by factors affecting financial markets, such as price and volume, volatility in interest rates, currency exchange rates, changes in regulatory and administrative policies of the Government or any other appropriate authority (including tax laws) or other political and economic developments. Consequently, there can be no assurance that the objective of the Portfolio would achieve. The value of the portfolios may fluctuate and can go up or down. The inability of the Portfolio Manager to make intended securities purchases due to settlement problems could cause the portfolio to miss certain investment opportunities. Neither the Portfolio Manager nor Sharekhan, its Directors, Employees or Sponsors shall be in any way liable for any variations noticed in the returns of individual portfolios. The Client shall not make any claim against the Portfolio Manager against any losses (notional or real) or against any loss of opportunity for gain under various PMS Products. There is no assurance or guarantee that the objectives of the portfolio will be achieved. Please note that past performance of the financial products, instruments and the portfolio does not necessarily indicate the future prospects and performance thereof.
