Punter's Call

Bulls on track

October 03, 2025

The Nifty witnessed a gap-down opening but saw strong buying interest from lower levels, indicating a bullish momentum. The index's immediate hurdle stands at 25000 where the 20-DMA and the highest open interest is built up on the call side. The index needs to break this mark on closing basis, which will lead to short covering moves towards 25400. The Bank Nifty continues to be the leader and remains in a buy mode with immediate support at 55000-54800 zone where put writers are active. The immediate index hurdle stands at 56000 where the highest open interest is built up and a break above this will lead to sharp short covering moves. Broader market remains strong with advance decline ratio in favour of advances.
